

BR98-48 Truck Body

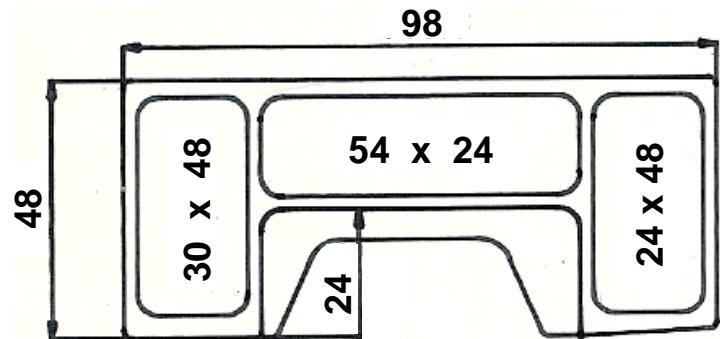

The BR98-48 truck body is ideal for small trucks. The lightweight fiberglass construction allows for more cargo carrying capacity. This truck body weighs in at 250 –300 pounds, not including the floor panel. The double-skinned doors make for a very lightweight, sturdy door.

Adjustment strips and automotive type seals are provided on all doors to assure leakage prevention. The BR98-48 truck body is ideal for those in occupations such as plumbers, electricians, landscape technicians or construction workers. This body will give you the capacity of a large truck and the comfort and maneuverability of a small or regular pick-up truck.
