

BR-FXC FIRE EXTINGUISHER CASE

The Built Right Fire Extinguisher Box is constructed out of aluminum to make it lightweight and corrosion resistant. It is powder coated red inside and out. It is designed to accept the hydro approved C-TGE-10E fire extinguisher, manufactured by General Fire Extinguisher Incorporation, Northbrook, Illinois. All necessary mounting hardware and rubber offset mounts are included. The fold away top and front face of the box provides quick access to the fire extinguisher. A quick release hood latch is used to secure the top and front face during normal operation.
